## KNOWLEDGE BASE

- Dhrumik Land Developers Private Limited is managed by - The team, that has strong credentials and knowledge on wind energy development, project management, operation & maintenance and technical experience
- We have a capable team with comprehensive knowledge that brings solution to our clients.
- The team has end to end solution for every need of client / industry.

## OUR SERVICE

- L-section & Cross-section survey
- Transmission line surveys
- Survey & Infrastructure mapping
- Detailed town planning surveys
- Digitalization
- Topographical surveys
- Engineering surveys
- Road, railways, pipeline and ropeway alignment surveys
- Cadastral surveys
- Construction surveys
- Grid surveys
- Auto-CAD drawings
- Survey & design drawing
- DGPS surveys
- Digital mapping

## PROJECT REPORT PREPARATION

In Construction Project Management Consultancy work, accuracy in Land Survey, Soil Investigation work, Hydraulic Design, Structural Design, Cost Estimates etc. In addition to that, presentation of final detailed Engineering reports is also important and should be in good presentation format as well as should meet the standard guidelines prescribed by respective Government and private bodies.

Dhrumik Land Developers Private Limited does follow all the guidelines of reproduction as well as we make sure that high accuracy level is maintained while drafting this crucial reports. We have all the expertise from skilled man power to technologies and tools to carry out different project report activities.

- i. Preparation of BOQ, Specification and Clauses
- ii. Cost Estimates with Specifications and Methodology
- iii. Conceptual Planning & Report
- iv. General Arrangement Drawing (GAD)
- v. Financial Analysis, Viability and Rate of Return
- vi. Preliminary Report
- vii. Project Report
- viii. Inception Report
- ix. Tender Document Preparation
- x. Detailed Project Report

## PROJECT MANAGEMENT CONSULTANCY

Dhrumik Land Developers Private Limited is one of the leading & reputed Project management consultancy in Rajkot, Gujarat, India. We have all the in-house expertise from skilled man-power to advanced technologies & tools, which enable us to carry tasks related to Project management consultancy. We ensure that we provide efficient, accurate and reliable services to our clients. We have long list of elite customers for whom we have worked as Project management consultant and able to deliver them best solution to their requirements. We carry all the tasks like Project to detailed Project engineering reports. Project management consultants play very crucial role in Construction and Infrastructure Development Projects.

## EQUIPMENTS & SOFTWARE

- DGPS (Differential Global Positioning System) - 2 Nos
- TS (Total Station) - 5 Nos
- GPS (Global Positioning System) - 10 Nos
- Auto level - 5 Nos

## SITE OFFICES & SET UPS

- Site offices & guest houses are all over in Gujarat.
- Site office and guest houses are being operated with sound technical team with technical equipments.

## LAND ACQUISITION

We render our services for the acquisition of Government / Forest or private land in any part of Gujarat, followed by WRA (Wind Resource Assessment) of the sites of specific interest. The acquisition can be undertaken followed by all necessary permission as per concerned laws / by laws of local government bodies.

## LIAISONING SERVICES

- We undertake the Liaisoning with Gujarat Government nodal agency like GEDA for project approval and Developer Permission.
- We also have a full-fledged team of professional employees and experts. Team having expertise in wind farm and solar park projects. We are one of the leading organizations in this particular market, so we want to be proactive in its continued growth and development.

## GETCO LIAISON

Power evacuation and ROW (right of way): Most important aspect of any power project is to have clear power evacuation infrastructure established in time and cost-effective way. Getting transmission line laid out from project site to 33kv, 66kv or 220kv substation is crucial. It involves critical right of way issues to construct and erect transmission tower into land parcel outside of the project site.

## CEIG LIAISON

Chief electrical inspector's approval is important for all kind of power generation project. This office determines whether all electrification on the project site done as per the electrical code of Gujarat. Also, this office carries responsibility of giving approval on all kind of electrical safety and security measures taken on the wind power generation site. Including project electrical drawing submission, control room design, structure safety and transformer ratings documents including safety measure documents verification is required. Without CIG clearance project cannot get final commissioning certificate.

Dhrumik Land Developers Private Limited can be one point contact to get you CIG clearance for your wind power generation project.

## GUJARAT POLLUTION CONTROL BOARD LIAISON

Though solar power generation project considered to be Non-polluting industrial project, in Gujarat every solar power project developer requires to get project site inspected, verified and documents part of GPCB clearance process. Certificate of clearance from GPCB is required for project commissioning.

Dhrumik Land Developers Private Limited provide complete end to end liaison services to get quick GPCB clearance.
